VISION

Educate the public and students of Kinesiology - For truly holistic health care, wellbeing and positive choice and empowerment.

MOTTO

Every day in every way we strive to empower, help, guide and educate those we come in contact with about Kinesiology and true Holistic Health Care and maintenance.

MISSION STATEMENT

We are Kinesiology Schools Australia, accredited colleges of the International College of Professional Kinesiology Practice (ICPKP) and this is our mission statement:

- To provide quality assurance in Kinesiology education
- To provide training that assists students to learn, grow and embrace life to their highest potential, as they achieve the competencies required of professional Kinesiology practitioners.
- To produce graduates who, whilst aware that any profession has its limitations, are confident in their ability to make a positive, long-lasting difference in the lives of their clients using safe, non-invasive Kinesiology techniques and whose primary motivation is to improve the quality and dignity of people's lives.
- To aid Kinesiology to become a respected household name and the Kinesiology profession to be a sought-after career choice by people of all ages.

INTRODUCTION AND OVERVIEW

There are three programs within the Professional Kinesiology Program (PKP):

- Certificate IV in Kinesiology
- Diploma in Kinesiology
- Advanced (International) Professional Kinesiology Programme™

The Professional Kinesiology Programme (PKP) courses, developed by Joan and Dr Bruce Dewe first originated in the late 1970s and have grown to be one of the most respected Kinesiology modalities available in the world today. This course is an integrated course of study in Professional Kinesiology Practice leading to registration as a Kinesiology practitioner.

The purpose of the Professional Kinesiology Programme (PKP) is to enhance the quality of your life and the life of others by restoring the ability to maintain physical, bio-chemical and emotional wellbeing. This is created through developing practical skills and knowledge that enable you to enhance the mind, body and spirit to allow the balanced whole person achieve wellness and their full potential.

This training is designed to provide advanced techniques in a sequential, integrated manner. Education begins with foundation material (Certificate IV), progressing to advanced skills (Diploma) whilst at the same time not repeating information previously learnt. Units are segregated into sections for easy learning.

The Certificate and Diploma take Kinesiology into the 21st century with a new and improved format for learning and professionalism. After years of successful research this new format was developed to provide students with an effective progressive program, which ensures not only full theoretical comprehension, but also the practical experience needed to be successful.

Many health funds now require practitioners to have a Diploma in Kinesiology for rebates. This trend ensures a high industry benchmark for kinesiology practitioners and is expected to continue.

Certificate IV in Kinesiology - HLT42807

NATIONALLY RECOGNISED
TRAINING

The Certificate IV in KINESIOLOGY, HLT42807, is a one-year professional course that is accredited by the Australian Nationally Recognised Training Authority. It consists of 10 Kinesiology units (BKP101 – BKP110), First Aid, Anatomy & Physiology, Clinical Safety and Business Administration.

These are the first fourteen units of the nationally recognised Diploma in Kinesiology and the complete Professional Kinesiology Programme™ (www.icpkp.com), which are already recognised and accredited in many countries around the world. The Certificate IV is recognised by the Australian Institute of Kinesiologists (AIK) and the Australian Kinesiology Association (AKA).

The **Basic Kinesiology Programme™ (BKP)** is the first step towards an exciting career in the fascinating field of kinesiology. BKP provides students with all the powerful kinesiology techniques and protocols needed to qualify and set up practice as a certified Kinesiology Practitioner.

Each Kinesiology unit consists of 16 class tutorial hours (theory and practical) plus a **Student Assessment Journal (SAJ)**, 20 to 25 hours, which requires the student to practice their newly acquired skills on volunteers. This assists the student to gain valuable experience and confidence whilst obtaining the theoretical knowledge required. The assessment journal is also part of the assessment and becomes an enjoyable integrated part of the program.

On completion of the Certificate IV in Kinesiology, graduates are eligible to register with the Australian Kinesiology Association or the Australian Institute of Kinesiologists as level 1 practitioners (RKP).

Please refer to page 8 of this booklet for a brief unit description of the Certificate IV in Kinesiology.

Diploma in Kinesiology - HLT51507

The Diploma in Kinesiology, HLT51507, continues to build on the effective skills and knowledge learnt in the Certificate IV in Kinesiology.

Extending the students learning by one and a half years the Diploma develops extensive advanced techniques and skills. As Kinesiology Schools Australia is a high quality Kinesiology educator our Diploma consists of 20 advanced Kinesiology units providing an extensive knowledge covering a variety of health issues.

Starting with **EMS201** students learn effective counselling and emotional trauma 'defusing' techniques followed by units on energy imbalance in relation to muscles affecting pain, flexibility and strength. Other units help with allergies and sensitivities to foods, substances and environmental issues that are increasingly becoming a problem and affecting more people every year. Students will also learn Kinesiology techniques and the effectiveness of vibrational energies such as flower essences, gems, chakras and the auric fields. There are also a number of units covering other emotional aspects of health.

For a more detailed description of the Diploma modules please refer to page 10 of this booklet.

These units are accredited by the Australian Nationally Recognised Training Authority and the industry representative body, the Australian Institute of Kinesiologists, and entitle graduates to register as a professional member with the Australian Institute of Kinesiologists (AIK), the Australian Kinesiology Association (AKA) and the ATMS (Australian Traditional Medicine Society).

Many Health Funds require a Diploma in Kinesiology for clients to be able to claim. Clients of Kinesiology Schools Australia graduates qualify for these rebates.

Postgraduate Kinesiology Training

The Professional Kinesiology Programme™, taught by Kinesiology Schools Australia offers the most comprehensive, student-centred training in Kinesiology worldwide. These units are accredited with the Australian Institute of Kinesiology (AIK).

Each of the Kinesiology Schools Australia campuses provides postgraduates with these units covering 11 advanced topics. These units are only available to students who have completed the Diploma. Graduates can choose to study all or some of these advanced units. We recommend all the units to truly become an expert in the field.

The Complete Professional Kinesiology Programme™ as the name implies is the *complete* Professional Kinesiology Programme written by Dr Bruce and Joan Dewe, the founders of the International College of Professional Kinesiology Practice (ICPKP).

Graduates of the Complete PKP will be sought after practitioners. The extra units take Diploma graduates from very good, knowledgeable, and experienced practitioners to the highest level of training available in the fascinating field of Kinesiology.

These units can be used towards CPE (continued professional education) points required by all professional health industry bodies. The techniques in these units are advanced techniques that quickly provide positive and effective results.

Advanced topics available:

- Learning Difficulties
- Emotional Anatomy and Intelligence
- Stress Management Techniques to evaluate and positively balance negative influences on our emotional wellbeing
- Correct structural problems of the pelvis and the pelvic muscles
- Clearing the Lymphatic and Digestive Systems
- Advanced Meridian Techniques
- Specialised Techniques to help the adrenal glands and restore energy and vitality many of us lack
- Complete Hypertonic Muscle Release
- Trigger Points

Certificate IV in Kinesiology Unit Descriptions

First year students learn the necessary skills that all Kinesiologists need: to take care of their own energy, to muscle test, the energy pathways and body systems, to evaluate and balance energy and record results, to recognise instinctual behaviours, Anatomy & Physiology, safety in the clinic and the basic business skills needed to run a clinic. Graduates qualify at the standard to work as a Kinesiology practitioner.

The 14 units outlined below, cover all required competencies of the HLT07 Health Training Package: Certificate IV in Kinesiology course number HLT42807.

BKP101 Energisers and Self Testing

The first unit is all about teaching students how to take care of and balance themselves. After all, the practitioner must stay healthy in body and mind to be able to help others. These techniques can also be used to teach clients some basic skills they can use at home to help themselves between consultations. Basic anatomical parts of the body and terminology are also learnt.

BKP102 Manual Muscle Testing

This unit introduces muscle testing, which is the basis of Kinesiology. Students learn to balance other people, using brain/muscle feedback to identify dysfunctions and stress.

BKP103 The 5 Elements

An introduction of Chinese philosophies to balance the energy using colour, sound and the emotions is the theme of this unit. This unit teaches techniques to correct and confirm the changes of a 5 Element balance and using food to strengthen muscles, meridians and organs.

BKP104 Kinesiology and Superficial Connections

Using the direction of energy flow the students learn how to balance the meridians and their related muscles and organs. Students also learn basic Anatomy and Physiology.

BKP105 Five Elements in-depth

Learning the 5 Element principles in depth and working with the full chart of emotions takes students to a whole new level of knowledge. An extra 14 muscles allows students a greater variety of ways to balance the client. Students also learn how to find one single correction to return the person to balance.

BKP106 Professional Skills – Balancing Protocol with PKP Database

In this unit students learn how to put it all together using the specialised protocols that set PKP Kinesiology ahead of the rest. Students learn how to use finger modes and to go back to balance stressful times in the past that affect us today.

BKP107 Pain Reduction

This unit teaches students to evaluate and reduce pain using a number of simple but powerful techniques. This unit is a favourite with most students. This opens a huge potential to bring clients in to your clinic.

BKP108 Balancing with Food

Focusing on nutrition this unit teaches an understanding of why the body requires a variety of nutrients and how the body uses these nutrients. We also look at a number of 'diets' and how to test the person to see if they may react to foods.

BKP109 Advanced Muscle Techniques – Reactivity and Posture

In this unit students start to learn the first of the advanced techniques where messages from the brain are confused causing reoccurring problems.

BKP110 Client Health Records and Professional Relationships

This unit sets out the requirements and responsibilities all practitioners need to be aware of and fulfil. Here students *'put it all together'* into a complete package to now become a PRACTITIONER.

A&P201 Anatomy and Physiology (home study unit)

The purpose of this home study unit is to provide a solid basis of all systems of the body. Students will have a good understanding of Anatomy & Physiology but will find this unit straight forward and to the point, nothing more and nothing less and written in an easy to follow and work through manner.

CS101 Clinical Safety (home study unit)

This home study unit covers the requirements necessary to provide a safe work place and work procedures for the practitioner, clients and general public. This unit covers occupational health and safety issues plus infection control.

BA101 Business Administration (home study unit)

The area many Kinesiologists and people entering small business lack is the knowledge to running a business. This home study unit teaches students the basic requirements and paperwork needed to prepare and run their Kinesiology practice.

OCT202 Senior First Aid (11475T)

This unit is available through St John Ambulance, Red Cross or other accredited providers and will be automatically recognised by Kinesiology Schools Australia.

Completing the Certificate IV in Kinesiology

Students undertake a final assessment at the college and a web-based 50 question multiple-choice assessment. Results will be received immediately.

A nationally recognised Certificate IV in Kinesiology will be awarded to students who successfully complete BKP101-110, Anatomy & Physiology, Clinical Safety, Business Administration and Senior First Aid.

WHAT'S NEXT?

The Certificate is the first step to a rewarding, successful career in Kinesiology. Graduates are eligible to register with the Australian Institute of Kinesiologists and the Australian Kinesiology Association and set up practice. Both the Diploma and the Post Graduate PKP units are available for those who wish to continue and become not just a good Kinesiologist but also a highly sought after, knowledgeable health care practitioner.

Diploma in Kinesiology Unit Descriptions

The following units, outlined below, cover all required competencies of the HLT07 Health Training Package Diploma in Kinesiology course number HLT51507.

EMS201 Mastery of Emotional Stress Release

This unit develops skills to defuse a variety of emotional stress issues including active listening, challenges to authority and terminating a relationship. 14 new stress diffusion techniques and their appropriate application. This knowledge is crucial for all Kinesiologists and will greatly enhance your communication skills.

ECO201 Lifestyle and Dietary Modification

Students learn Kinesiology techniques relating to dietary habits and lifestyle and how to identify nutritional excess and deficiencies and when clients need to add or delete supplements.

ECO202 Immune Mismatch Responses, Allergies and Hypersensitivities

Continuing where BKP108 stops, students learn various sensitivity techniques to identify and release stressful foods and substances (allergies and reactions). These are becoming an epidemic in our society. Learn how you can help.

HMR201 Hypertonic Muscle Release

No need to feel uptight after this unit. Flexibility is the word here. Students learn how to release tight muscles and have theirs released while they learn.

JAF201 TMJ and Cranials

Headaches and migraines are just two symptoms caused by jaw and cranial problems. Here students reset these imbalances bringing relief to many.

MST201 Muscle and Skin Activation

Students develop skills and understanding in identifying and correcting meridian energy imbalance related to muscle circuits, skin, scars, blood chemistry, thymus and spleen energy. This variety of techniques covers a number of key areas not previously covered.

MST202 Shoulder, Elbow, Hand Muscle Protocol

Students learn test and correction techniques to release pain, increase the function and performance of the shoulder, arm, hand and fingers. We all know people with pain and MST202 and MST203 are major units to release these pains.

MST203 Hip, Leg and Foot Muscles

Students learn test and correction techniques to release pain, increase the function and performance of the hip, leg, knee and foot.

PIB203 Basic Brain Integration Skills

Learning difficulties is a topic of high discussion. Kinesiology is a huge help to both adults and children with these problems. This unit teaches techniques related to neurological blind spots caused by fear, pain, self-doubt of learning difficulties and dyslexia.

VEF201 Flower Essences

Flower essences open up a whole new world to students. Through flower essences students learn to identify and utilize insights relating to their properties and photographic images, to re-balancing mental, emotional and spiritual energy.

RBT201 Clinical Body Contact

Students learn the various massaging techniques used to relax, release pain and tension and palpate areas within the body. This is not a massage unit as such.

EMS301 Genetic and Meridian Emotional Release

Students will be able to assist the clients to express life events in terms which do not decrease energy; to recognise in themselves behaviours that are similar to those of either parent or which are a negative reaction to the behaviour of either parent; to be able to choose, to make positive adaptive responses and to see positive possibilities in their future. They will use meridian-based affirmations affecting a multitude of personal issues and belief systems.

EMS302 Subconscious Self-Perception

This unit teaches students to find and work the subtle messages that interfere with achieving our desired outcomes in life. Sabotage programs, misperceptions, misunderstandings and those little hypnotic messages that have snuck up on us over time affect our every essence.

EMS303 Dreams, Goals and Attitudes

This unit teaches students how to evaluate and change many of the attitudes that affect our health and stop us from achieving our goals and full potential. This unit is both exciting and a real eye opener.

VEF301 Gems and other Vibrational Energy Fields

Continuing from VEF201 students learn about the healing powers of a variety of powerful vibrational healing systems such as gems, tissue salts and homoeopathics and their use within Kinesiology.

VEF302 Metaphysical Energy Fields

Students in this unit will learn how to evaluate and correct various energy fields such as chakras and the auric fields that are vital to our health and how we perform.

JAF301 Ligaments and Joints

This unit teaches advanced techniques so students can work effectively with ligament and joint injuries affecting so many people. Many people 'put up' with pain simply because they don't know how they can be helped. JAF301 and JAF302 are the answer to many of these problems.

JAF302 Injury, Strain and Inflexibility

This unit teaches students about inflexibility and restriction of muscles due to injury, strain and a variety of other causes.

MST301 Head, Neck and Trunk Protocol

The variety of muscles learnt in this unit helps students fine tune areas that most practitioners wouldn't know where to even start. These are muscles of the face, eyes, throat, tongue, upper neck and the small back muscles.

MST302 Touch, Clothes and Environment

Establish boundaries of professional touch in discussion with the client; identify the adverse effects of past and/or present situations involving deprivation, unwanted or excessive touch, out of touch with the environment, clothes and accessories; losing touch.

NUT201 Nutrition (home study unit)

This home study unit teaches students about vitamins and minerals, their use, source, function, body demand, signs of deficiency and toxicity and the safe range of dosage. Students will find the two assignments are very interesting and will become a useful reference guide in your clinic.

MAB201 Manage a Business (home study unit)

Graduates of the Diploma will be knowledgeable practitioners with the possibility of building a busy health practice. This home study unit teaches students how to manage and run their business, from stock control to holding and running a meeting, advertising and marketing.

RES201 Research (home study unit)

Students learn and participate in how to perform and analyse Kinesiology research. Kinesiology has been around for a number of years and students will learn how to prove that what we do does work.

MEN201 Mentoring (home study unit)

This home study unit will help students reinforce the knowledge and skills learnt at the same time as building a network within the industry. Skills gained in this unit include being able to confidently explain the knowledge. This helps practitioners gain confidence in themselves to promote and build a client base.

A&P301 Basic chemistry, Pathophysiology of disease

(home study unit)

In this unit students learn some basic chemistry, pathophysiology of disease and the effects of biological maturation and the aging process.

The Authors

Dr Bruce Dewe, co-founder of the International College of Professional Kinesiology Practice, is one of the world's leading international lecturers in Kinesiology and has been a medical doctor for over 30 years. He was first introduced to Kinesiology in 1977 and has been involved and instrumental in its development ever since. Dr Dewe introduced a series of advanced skills workshops for Kinesiology in the early 1980s which then evolved into the PKP workshops and finally to an International PKP Certification Programme.

Joan Dewe is a Chartered Natural Medicine Practitioner who specialises in Kinesiology at her clinic in Auckland. Having followed her husband Bruce into complimentary medicine she has helped develop the PKP workshops and pioneered teaching them. Initially trained as a high school teacher, Joan's ability to summarise information into clear stepwise procedures has helped make PKP an easy to learn modality.

During the 1990's Bruce and Joan re-wrote and undated the complete PKP course making it a student friendly in-depth learning experience. Kinesiology courses were traditionally put together as new techniques emerged. The re-write of these courses has now made learning a free flowing and integrated experience making learning easier and building confidence and competency very quickly.

Kinesiology Schools Australia

Registration number: 30916

Kinesiology Schools Australia (KSA) is a Registered Training Organisation offering nationally recognised Certificate IV and Diploma in Kinesiology and is accredited by the International College of Professional Kinesiology Practice.

In 2003 a leading Queensland newspaper in conjunction with the Department of State Development and market research specialists AC Nielson voted Kinesiology Schools Australia as the best business in its category in the Business Achievers Awards.

Kinesiology Schools Australia consists of seven campuses throughout Queensland, New South Wales, and Victoria. Having seven locations means students can, if they desire, start their study at one campus and continue at another. All marks will be automatically transferred.

The Professional Kinesiology Programme™, is the course taught by Kinesiology Schools Australia and is taught in many countries around the world making it one of the most widely used modalities of Kinesiology worldwide.

Since we are a specialised Kinesiology college, students can be assured that the syllabus meets the highest industry standards and the lecturers are Specialised Kinesiologists in private practice. All Kinesiology Schools Australia lecturers are accredited Workplace Trainers, practicing Kinesiology consultants and qualified Faculty of the International College of Professional Kinesiology Practice. Each Kinesiology Schools Australia campus must have at least one *Senior Faculty Member* of the International College on staff. This once again assures students will receive high quality training and practical hands on experience.

The Hervey Bay campus allows students from the Wide Bay and Fraser Coast region to study close to home in a relaxed and professional setting. We are investigating the possibility of catering to students who travel significant distances, by combing some workshops where possible.

VENUE:

**Shop 1, 59 Torquay Rd
Pialba QLD 4655
Phone: (07) 4128 4331**

Your Instructors:

Principal:

Susan Koschel-Gatenby

Susan first learned kinesiology in 2001. In 2003 she began teaching with Jenne Burns at her Narre Warren Campus in Melbourne. Since moving with her family to Hervey Bay in 2006, Susan has built up a large and growing client base. Establishing Kinesiology College Hervey Bay is the culmination of Susan's dreams as a Kinesiologist. Her enthusiasm and zest for life is contagious. Her goal as a teacher is to help students build their knowledge of Kinesiology, gaining in confidence as they develop insight into themselves & others. Armed with the techniques and protocols of PKP these students will go on to become brilliant kinesiologists.

Assistant Instructor:

Megan Williams

Megan has studied kinesiology since 2005 starting with Touch For Health (TFH). Completing her Diploma in Remedial Massage in 2006, whilst continuing with her kinesiology studies (more TFH and 3-in-1 Concepts) has allowed her to build a successful practice with clients that keep coming back for more!

She is dedicated to assisting her clients and students to achieve the very best that life has to offer, and she does this knowing what a difference it has made to her life.

WHY THIS COURSE IS SUPERIOR

- PKP has a proven record since the early 80s
- Professionally written by a medical doctor
- Covers most aspects of Kinesiology
- Student Assessment Journal – directed self study to help you practice and learn between classes
- Nationally & Internationally Recognised Training
- Austudy approved
- Accredited by both Kinesiology Associations – AKA and AIK
- Kinesiology Schools Australia has 7 colleges to choose from in 3 states within Australia - if move can continue automatically
- Internationally recognised – can continue your study overseas
- “Earn As You Learn”: set up your own practice after completion of 1st year while completing the Diploma.
- Plenty of practical, hands on clinical experience
- Covers most learning styles using Theory, Discussions, Demonstrations, Questions, Practice, Practical examples, Student Journal, and Class activities.
- Many Health Funds require practitioners to have a minimum of a Diploma. This means that your clients are eligible for a health fund rebate.

What you get for your money

- High quality experienced lecturers
- Plenty of ‘usable’, hands-on knowledge and skills
- Manuals and Student Journals included (some text books required for home study units)
- Licenses with the International College of Professional Kinesiology Practice
- All assessments (includes 1 free re-sit of practical assessment if required)
- Mentoring
- Morning and afternoon tea
- A qualification recognised by the Australian national training framework
- A friendly student centred and relaxed atmosphere

Kinesiology is a skill that requires hands-on teaching and supervision that cannot be learned from a book or online. Many students comment on how valuable the practical and professional experience of their instructor is to their learning process and how it helped them in their transition from student to competent and confident Kinesiologist. The focus on each student’s unique learning process ensures that you develop all the necessary skills to build a successful and profitable Kinesiology practice.

INVESTMENT

Full Time Study

Both the Certificate IV and Diploma in Kinesiology are Austudy approved for financial assistance.

Certificate IV in Kinesiology

Year 1

2012 Intake

Deposit	\$1500 due by 17/2/12
Payment	\$ 750 due by 17/3/12
Payment	\$ 750 due by 17/4/12
Payment	\$ 750 due by 17/5/12
Payment	\$ 750 due by 17/6/12
Payment	\$ 750 due by 17/7/12
Payment	\$ 750 due by 17/8/12

Total \$ 6000

Diploma in Kinesiology

Year 2, 3 & 4

2012 Year 2	\$ 4400	8 workshops + 3 Home Studies
2013 Year 3	\$ 3420	6 workshops + 2 Home Studies
2014 Year 4	\$ 2700	6 workshops

Details of payment plan on application

If for some reason this course is not what you expected you may withdraw after BKP101. No further instalments are required. (see refund policy).

If you have studied other streams of kinesiology and are competent, please talk to us about Recognition of Prior Learning (RPL) options and special discounts

Payments can be made by: (cash not accepted)

- **Cheque:** payable to
Kinesiology Schools Australia,
Shop 1, 59 Torquay Rd
Pialba QLD 4655
- **Direct deposit / Internet banking**
Commonwealth Bank BSB 064185
Kinesiology Schools Australia Account no. 1008 3430
please state your name as reference

Enrolment Process

1. Experience PKP style session: \$100 Duration 90 min
Collect Enrolment Form
2. Deposit and Enrolment Form received at least two weeks prior to course commencement: \$1500
3. Acceptance Letter Sent to confirm position in class.

Note 1 #: First Aid is NOT included in the price. First Aid can be taken with any Registered Training Organisation authorized as a First Aid provider.

Note 2 #: Fees paid in advance cannot be transferred to another college or campus.

Note 3 #: Other Required Expenses

- A massage table will be required by BKP103.
- A textbook is required for Anatomy & Physiology.
- A textbook is required for Nutrition. (Diploma)
- PKP charts are recommended 4 x \$11, and 2 x \$40

Note 4 #: Classes will commence subject to numbers.

Note 5 #: Class Attendance - If you are unable to attend a training module, alternative arrangements need to be made with the principal **PRIOR** to commencement of the course and confirmed by the campus in writing. It is the student's responsibility to contact the college.

Note 6 #: Sickness - If you are unable to attend a training module due to illness or any other unforeseen circumstances, you may join in with a later class when that unit next becomes available. Alternatively you can chose to complete the module at another KSA campus at your own cost.

NATIONALLY RECOGNISED
TRAINING

Class dates 2012

Certificate IV in Kinesiology – Weekend Class

9am – 6pm Sat and Sun (103, 105 & 107 include 6 – 9pm Fri)

BKP w/end workshops:

BKP101	Mar 3+4
BKP102	Mar 24+25
BKP103	Apr 13+14+15
BKP104	May 26+27
BKP105	Jun 15+16+17
BKP106	July 14+15
BKP107	Aug 3+4+5
BKP108	Aug 25+26
BKP109	Sept 15+16
BKP110	Oct 13+14

3 correspondence units:

A&P 201	Anatomy & Physiology
BA 101	Business Administration
CS 101	Clinical Safety & Infection Control

(includes e-mail and phone support)

Senior First Aid *

(11475T) OCT 202 - external studies

*(not included in course fee)

Exam date and time TBA

Certificate IV in Kinesiology – Tuesday Class

Tuesday Class begins 6th March through to 30th Oct 2012

9am – 4pm during school terms

Diploma of Kinesiology - 2012

Dates

Course Code

10/11 Feb	EMS201	Mastery of Emotional Stress Release
12/13 Feb	MST201	Muscle and Skin Activation
17/18 Mar	MST301	Head, Neck and Trunk Protocol
21/22 Apr	MST302	Touch, Clothes and Environment
19/20 May	ECO201	Lifestyle and Dietary Modification
28/29 July	EMS301	Genetic and Meridian Emotional Release
18/19 Aug	ECO202	Immune Mismatch Responses, Allergies and Hypersensitivities
8/9 Sept	PIB 203	Basic Brain Integration Skills

Refund Policy

Introduction This policy is included in the pre course student handbook and the student handbook.

Entitlement to refund Students may be entitled to a refund of course fees depending on when the application for withdrawal is received.

Where an application is received ...	Students will receive ...
More than one month prior to the commencement of the course	A refund of the full cost of the course.
More than ten working days prior to the first day of the course	A refund of the full cost of the course, minus an administration fee of \$100.
More than ten working days prior to BKP102.	A refund of any fees paid in advance. (No refund is payable for BKP101 or Home Study Units received)

Transfer to another course A student may change enrolment to another course delivered concurrently with the original enrolled course or to the original enrolled course offered at a later date. The request for the change must be made in writing and must be received at least ten working days prior to the commencement of the original enrolled course. The fees paid minus an administration fee of \$100 can be transferred to the new course. A second administration fee of \$100 will be charged if transfer takes place within ten working days of the first day of the course.

Substitution An organisation sponsoring training may substitute suitable personnel at any time.

Withdrawal after commencement of training Once training has commenced for the course, no refund is available to students who leave before the completion of the course. Students who pay by monthly instalments have enrolled for the full course and come under the same refund policy. They will be liable for the full course fee.

Students who have certified medical reasons or personal hardship may apply to KSA for special consideration. If application is accepted, KSA will consider refunding a portion of the course fee in relation to those components of training that have not been started by the student, minus an administration fee of \$100.

Attendance of withdrawn student on subsequent courses Students are able to attend subsequent courses to finalise incomplete competencies. The original course fee payment minus administration fees can be used as credit towards that course within 12 months of the initial payment. Application for transfers must be received in writing at least ten working days before commencement of the unit they would like to transfer.

Application for refund Students are required to put any request for a refund of course fees in writing.

Cancellation of course Should the RTO cancel a course, students are entitled to:

- a full refund (or pro-rata adjusted refund),
- transfer of funds to another/future course, or
- transfer of funds to another KSA campus or affiliated college.

In this event, students will be given their preferred option.

Cancellation of apprenticeship or traineeship Students enrolled in an apprenticeship or traineeship will receive a refund for training paid for in advance but not received at the time training ceases.

Fees paid in advance cannot be transferred to another college or campus

Testimonials of students from KSA Campuses across Australia

I really wish to thank you for your confidence and encouragement, which gave me the desire to continue with the course. I have been doing many balances on family and friends with positive feedback, which in turn has given me the confidence to go on. Thanks again and hope to see you in the future. - Sue

I am so happy that I did the kinesiology, with you as it has been the biggest growth I have had. I do miss the regular Thursday visits to Narre Warren, it was the best experience, and I will never forget it. You truly are a beautiful person and teacher. - Fiona

I am thoroughly enjoying my intro to Kinesiology...from knowing very little about the processes involved, I feel I have now progressed so far that I am confident of my knowledge of everything learnt...as well as my ability to work with clients as a trained Kinesiology practitioner - Amy M.

Being able to study the Diploma course has realised my dream of having a fulfilling career and job that I am passionate about. The course is set out in such a manner that you learn to be a professional from the beginning. It is so rewarding to be able to help people reach their full potential!

We have been richly rewarded by the experience and have gained valuable practical training at the same time. The classes have been conducted by a truly caring and professional team...enthusing us students. Our class mates have also added to the enjoyment of the course, building trust and confidence in each other as we study and work together.

We have personally found the course has enriched our lives in so many ways, giving us many and varied techniques that assist us both in our personal and family life, and our friends are also (already) benefiting from our new skills. - Joan & John .

This Kinesiology course is very enjoyable and enlightening...and the skills taught...greatly enhance my current health practice - Chris.

Kinesiology has enabled me to improve my life on so many levels...not only did I meet and make friends with an amazing group of teachers and fellow students, but also discovered many processes to enable the body achieve a high level of wellness. I use what I have learnt to enhance my life in all areas, and enjoy watching friends, family and clients enhance their lives through Kinesiology.

This truly has been a life-changing course for me and if you are attracted to it - I suggest you follow your instincts and go for it. I did and it has been well worth it. - Sue E.

This program is the best I've seen. The structure of teaching creates an optimal environment of learning and discovery, and it is a joy to be a part of something so fantastic. I am privileged to be a part of something so profound. - Breanna

I originally completed the old TFH and PKP3 workshop series. I was lucky to have excellent instructors, but I know that due to the composition of the courses I only retained about a quarter of the information given. The new ICPKP Diploma program has presented the same information and more in a format that makes sure you know the material inside and out.

I have found the modules studied (10 in total) are taught in a relaxed environment with people who have the same goals and interests as myself to be quite enjoyable. Special friendships have been formed that I know will be long lasting as we continue to share our experiences both professionally and socially. Each module is conveniently held on week-ends which allows me to attend without the worry of finding carers for my children.

Being able to study the Diploma course has realised my dream of having a fulfilling career and job that I am passionate about. The course is set out in such a manner that you learn to be a professional from the beginning. It is so rewarding to be able to help people reach their full potential! - Toosje K.

I have successfully completed the basic kinesiology practice course (BKP) and the MST series of ICPKP with Jenne Burns. This was a very profound experience and the skills learnt in these courses can be effectively applied in my remedial massage practice. Especially the MST series gave me a deep understanding of the relation between Muscle/Meridian/Organ/Nutritional & Emotional Anatomy concept. During therapy sessions I am able to incorporate the various skills and inform the clients accordingly.

Thank you Jenne for being so patient with me, when often I felt overwhelmed and struggled through the text and practical work ready to throw the towel in, you supported me along the way to become a Level 1 Kinesiologist and a AKA member. The ICPKP course and your teaching created a solid foundation for me to build on. Brigitte
